FITZPATRICK'S FOOD

About us

Fitzpatrick's Food was originally set up as Food by Andrew Fitzpatrick in 2020, after Andrew was made redundant in the Covid pandemic from his head chef role. What started as a way of keeping busy and creating quality food for family, friends and neighbours from his home kitchen soon flourished into a business, where Andrew and his partner Rhianne created a variety of dishes for customers far and wide. Over two years and thousands of dishes later, they finally got the keys to their first ever shop in June 2023.

"The home of great flavour"

From the beginning, our focus has been great flavour. We are proud to serve quality food using homemade ingredients, made in our kitchen.
